

SIDE EVENT

THE FUTURE OF FOOD IN A CLIMATE CHANGING WORLD

**Wednesday 3 May
2017**

12:45 – 13:45 | Chateau

**Health Impacts of
Food Systems:
Identifying Levers for
Change**

DESCRIPTION AND EVENT OBJECTIVES

Building on the morning session, Health, Climate, and Food Systems: Pathways of Influence, this side event will provide an opportunity to interact informally with members of the IPES Health Impacts project team, including report authors, IPES panel members, and Global Alliance committee members. IPES Food has been commissioned by the Global Alliance to write a report on the health impacts of food systems. Following a brief presentation on the report's early findings, attendees will have the opportunity to ask questions, discuss emerging recommendations, and connect with the project team on a small group basis.

Objectives for the session include:

1. Provide a high-level overview of key findings emerging from the IPES Health Impacts report
2. Discuss and request feedback on strategic recommendations and levers for change under consideration by IPES Food

AGENDA

12:45	Lunch
13:00	Welcome and Opening Remarks <i>Lauren Baker, Global Alliance for the Future of Food</i> <i>Anna Ruggerini, Barilla Centre for Food and Nutrition Global Alliance for the Future of Food</i> <ul style="list-style-type: none">• High-level overview of the goals for the report• Objectives of the side event
